Fingerprint Basics

Site #1: NIST Matching Up Fingerprints (http://www.nist.gov/public_affairs/forensics/wspapers.htm)

1. Click the link for "Matching Curves, Improving Accuracy" and work your way through the pages to complete this section. **WAIT** for the blue CONTINUE or NEXT BUTTON buttons before you move ahead.

- A. What does the acronym FBI mean? _____
- B. How many fingerprints are in the FBI master database of criminal files? _____
- C. What is another term for a partial print found at a crime scene? _____
- D. What do fingerprints consist of? _____ and _____
- E. What are the three main types of fingerprints? _____
- G. What type of latent prints are shown below?

H. How many minutiae points must be in common between the latent and suspect prints to be considered a match? _____

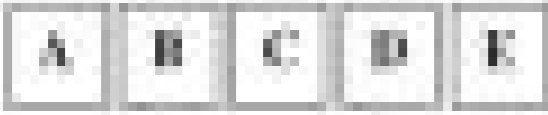

- I. How many minutiae points will match on a complete fingerprint? _____
- J. What type of fingerprint equipment is replacing "inked" fingerprints? _____
- K. Follow the directions to find a print that matches the latent print from the index card. Which suspect matched the latent print? _____
- L. Which type of fingerprint is most common? _____
- M. Which type is least common? _____

2. Return to the first page of this site and scroll down to find the link for "Now try our fingerprint matching game!" Click the link and keep track of the number of guesses you needed to find the correct one.

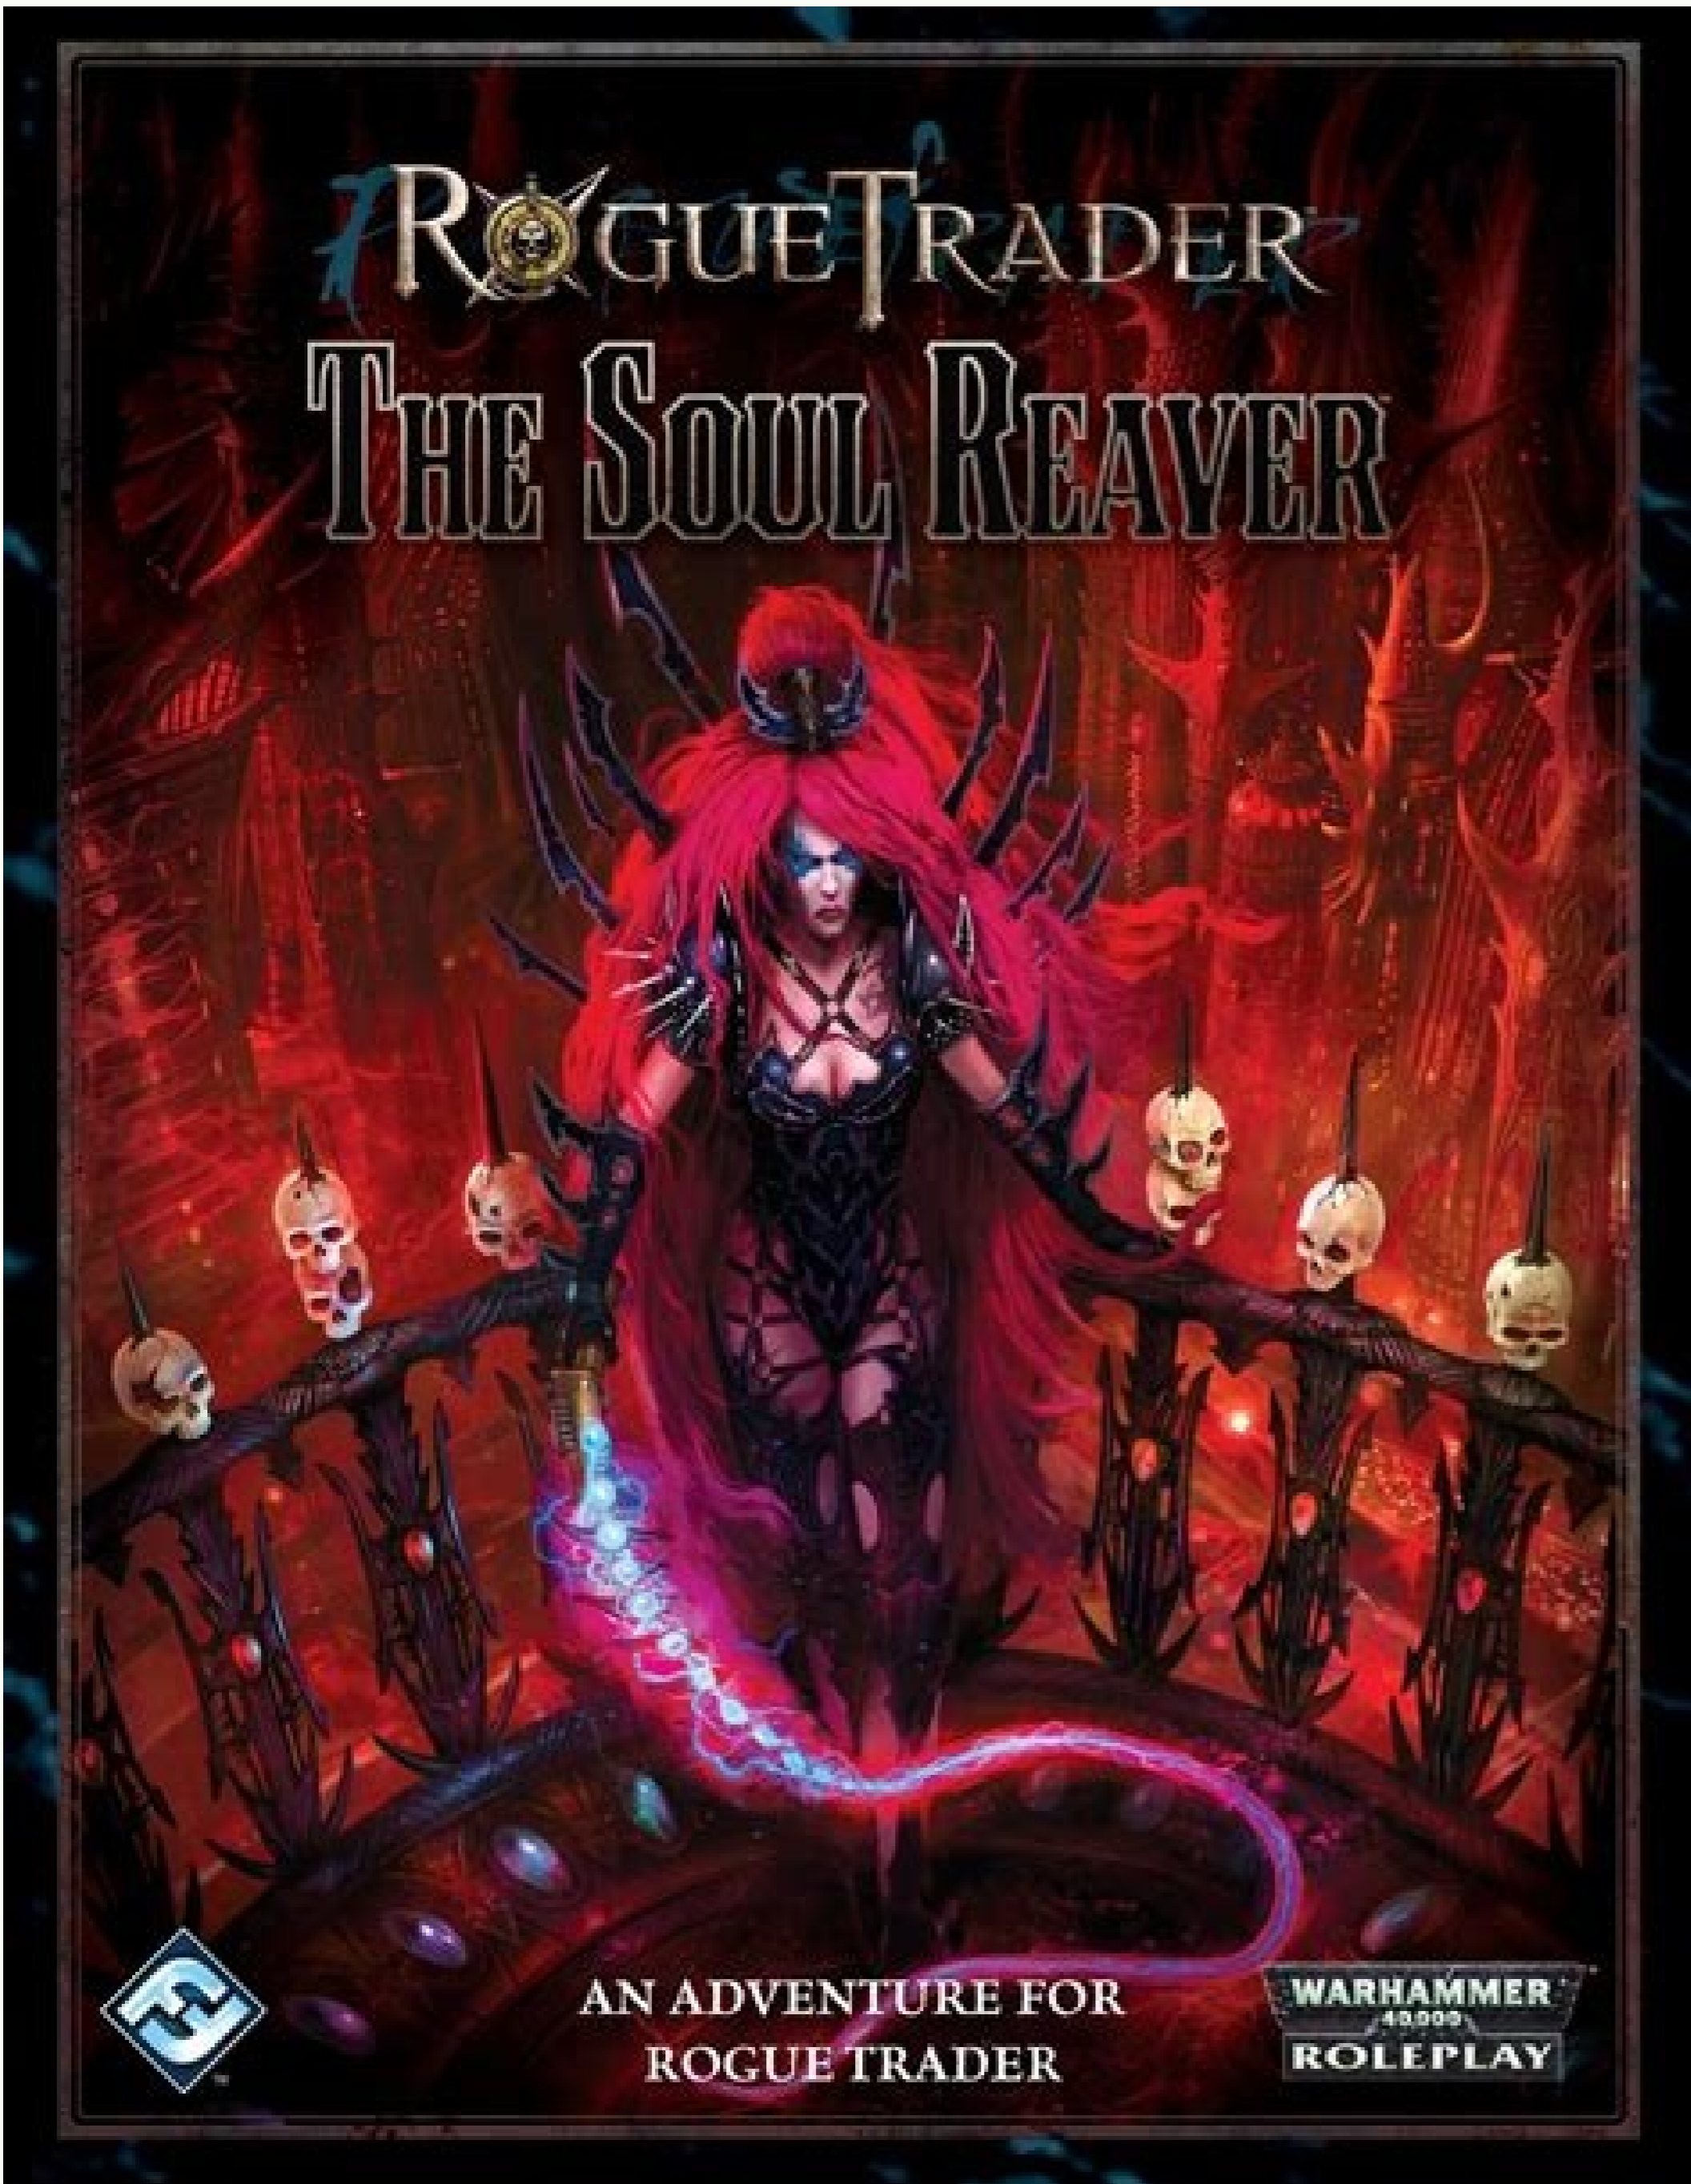

- Which fingerprint was the correct one? _____
- How many guesses did it take to find the correct one? _____

Site #2: TrueTV Fingerprint Game (http://www.true.com/shows/forensic/_the/games/fingerprint/)

To identify the prints, use the corresponding letters below.
